

The following release notes describe changes in Event 1 Integrator between revisions 2.81.0014 and 2.82.0015. Please read them carefully before you use the new software.

Contents

Compatibility Section 1
 Integrator database compatibility *Section 1.1*
 Prolog Manager 2008 & Hotfix *Section 1.2*
 Sage Timberline Offic..... *Section 1.3*
Documentation Section 2
Software Changes Section 3
 Cost Interface *Section 3.1*
 Invoices Interface - New..... *Section 3.2*

Section 1 - Compatibility

- 1.1 **Compatibility with Integrator database created by previous versions**
 The Integrator database structure has changed. After installing this version, when you will be notified that the database must be upgraded when you open a connection. The upgrade will be automatic.
 - 1.2 **Compatibility with Prolog Manager 2008 & Hot Fixes**
 Integrator versions 2.82 and higher have been tested with Prolog Manager 2008 SP2.
 - 1.3 **Compatibility with Sage Timberline Office**
 No changes were made with respect to compatibility with Sage Timberline Office. This version remains compatible through version 9.4.1.
-

Section 2 - Documentation

- 2.1 **Documentation**
 There have been no changes to the documentation with this release.
-

Section 3 - Software Changes

3.1 Cost Interface

This release includes a new option in the Cost Settings window. You now have the option to turn summarization for General Invoices on or off. In previous versions, General Invoices always represented summarized cost data. If summarization is turned off, cost is transferred to reflect individual invoices, line items and transactions.

3.2 Invoices Interface - New

This release includes an optional new interface that allows for the transfer of cost information from Prolog Manager to Sage Timberline Office. This interface is not part of the standard license and may be purchased and enabled. Contact the Event 1 Software sales team for more information.
